#### SOME TESTIMONIALS

*"I have taken several self-improvement seminars prior to Dr. Andre's LES. But what I got from LES was a unique joyful experience. I'd say it allowed me to fully express who I really am. It reinforced some of the LES principles I have been unconsciously practicing – but this time, I felt I saw an overall coherence – like all the pieces of my life seem to fit together.*

*"I consider LES to be the only seminar I have taken that fully integrates – the experiential level – my body, mind, emotions, career, and spirit into something that's very practical. I'm delighted to now consider Dr. Andre my mentor on how I can further use my talents and gifts to make a real positive difference in the lives of others."*

*"Before I took LES (Leadership Empowerment Seminar), my life was just running in circles. I was at a loss, to say the least. No matter what I did or where I went, there was no sense of meaning. I felt some sort of emptiness."*

*"After taking the LES in Davao, finally I said, "This is it!" I felt more alive and my perspective in everything changed. I learned to get to know more of myself, especially my Heart's Desire."*
